Location

Wharton is just southwest of Houston, Texas. The city is full of history and culture, from the Southern Pacific Railroad Depot (restored from the original built in 1912) to the grazing Brahman cattle ranches. Wharton typically experiences hot, humid summers and mild to cool winters.

Disaster

Hurricane Harvey reached tropical storm status on August 17, 2017 and continued to develop and intensify, becoming a category 3 hurricane that finally dissipated on September 3, 2017. It was the costliest natural disaster ever on record in the U.S. and the first major hurricane to make landfall on U.S. soil since 2005. There were 91 confirmed deaths and more than 300,000 people were left without electricity. Many people were displaced and thousands of homes were destroyed or sustained major damage.

MDS

Mennonite Disaster Service is grateful to be sharing space at the Restoration City. There will be 4 buildings that we will use for housing and dining, with all meals provided by the campus. MDS is planning to focus on the new construction of 4 homes in the Wharton area. There will likely be few if any repair jobs.

Transportation Options

It is the responsibility of weekly volunteers to plan, schedule, and pay for their transportation to and from the project in Wharton. If you choose to fly in or take a bus, you will need to be sure to arrange for transportation from the station to the project, as MDS is not able to pick up weekly volunteers. If you have questions about this, please call the Coordinator for Weekly Volunteers at 800-241-8111.
